

COLLEGE CORNER

This years seniors had an ambitious list of college applications:

Amherst College	New York Institute of Technology
Becker College	Northeastern University
Berklee College of Music	Smith College
Boston College	St. John's University
Boston University	SUNY
Bridgewater State University	UMass Amherst
Cosmetology Schools	UMass Boston
Curry College	UMass Dartmouth
Dean College	UMass Lowell
Drexel University	University of New Haven
Framingham State College	University of Pittsburgh
Hampton University	University of Rochester
Hofstra University	Worcester State College

UPCOMING EVENTS

Spirit Week: July 24th— 28th

Junior/Senior Prom: August 9th

Senior Week: August 14th—19th

Graduation Ceremony: August 23rd

Summer Break: August 24th—September 5th

EUROPE TRIP

A group of our students have returned from their 9 day adventure in Europe!!

The goal of this trip was to give our students the opportunity to experience cultural, culinary, architectural, and economic similarities and differences in some of Europe's countries.

Our group of students traveled through Italy for the first 4 days, where they visited historical sites and museums in private and semi-private tours with the local experts. Sites included are; Spanish Steps, Trevi Fountain, Pantheon, Piazza Navona, Vatican Museums and Sistine Chapel, St. Peter's Basilica and much more! You can read about its history in a book, but why not actually experience it yourself!

On Day 5, the group traveled to Denmark where students visited with our partner school, Hilltop School. The students participated in school curriculum with Hilltop School students in the morning and enjoyed educational activities around Denmark with fellow students in the afternoon, such as LEGO land, Hanstholm Bunker Museum, Klitmoller Bay (surfing/kayaking).

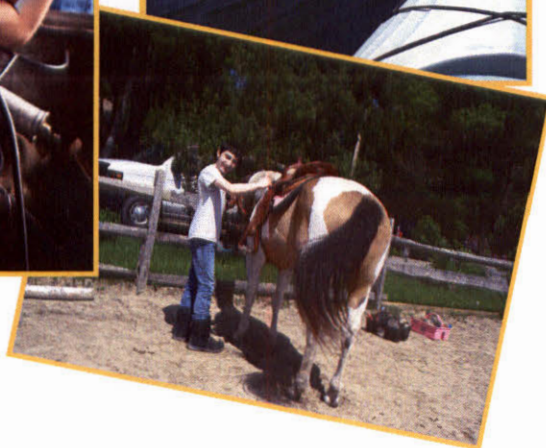

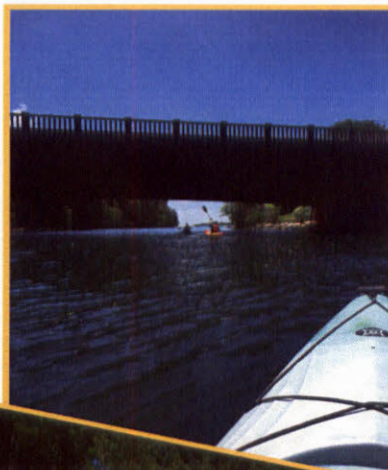

SUMMER ENRICHMENTS

When kids think of summer school they don't typically describe it as the best time of the year.

But at Chamberlain International School, a year-round therapeutic boarding school, that is exactly what they are saying. Balancing academics and activities has helped keep these students, with a varying mental health challenges and learning disabilities, engaged throughout the dog days of summer.

"The only camping I've ever done is in Central Park!" joked Nick S when asked about his summer at Chamberlain. Nick is in the Outdoor Challenge enrichment and is from Staten Island, NY. They are planning two overnight camping trips in New Hampshire and Maine over the next two weeks with activities that include zip lining and whitewater rafting on the Kennebec River. After hiking the cliff walk in Newport, RI Nick said "The best part of the enrichment's are getting to interact with my teachers outside of class." Building relationships inside and outside of the classroom is a big part of the programming as these relationships become an agent for change.

With twelve different enrichment courses the programming covers a wide range of interests. Equestrian, Automotive and Artistic Exploration are a just a few more examples of the offerings. The students do three days in the classroom and two days in an enrichment program of their choosing. The goal of the programming is to help build confidence within the students who have struggled in a traditional classroom. It also seems to have a bonus side effect of being a lot of fun.

FULL LIST OF ENRICHMENT'S

Artistic Exploration
Automotive Technology
Equestrian Studies
Cooperative Games/Pool
Outdoor Challenge
Yoga/Meditation
Golf
Fishing
Tourism
Disc Golf
International Cuisine
Environmental Group
