

CHAMBERLAIN NEWS

March Edition

Making the Grade

A little direction goes a long way with our students achieving academic success. Smaller classroom sizes, additional support, individual instruction and some amazing educators are just some of the many benefits of being a student here. Last years testing for Massachusetts Comprehensive Assessment System, or commonly abbreviated as MCAS, our students attained 100% passing scores for the English Language Arts portion and 91% for the Mathematics. Alumni are currently attending a number of different colleges and universities including The University of Vermont Montpelier, UMASS Amherst, Bridgewater State University, Becker College and many more.

While it may be common for students to go on to higher education, many of our students never thought it possible as one alumni said before graduation last year "I don't know if I ever would have finished High School is it were not for Chamberlain."

Upcoming Events

Staff attend a refresher course put on by the M.A.R.C Center of Bridgewater State University

Before the break started we were fortunate to have another visit and refresher course with Massachusetts Aggression Reduction Center as they work with our team to identify specific behaviors that educators need to look for, how cyber behaviors impact in-school bullying, cyber bullying and to look at concrete areas for focus.
